

## 1) Order.php

The screenshot shows the 'ORDER YOUR PIZZA' form with the following fields and options:

- Size of Pizza:** A dropdown menu with 'Select Size' as the placeholder.
- Kind of Pizza:** A button menu with three options: 'Pepperoni', 'Vegetarian', and 'Combo'.
- Extra Cheese:** A checkbox labeled 'Yes' which is currently unchecked.
- Quantity:** A text input field that is empty.
- Cost of selected Pizza:** A label positioned above two buttons: 'Calculate' and 'Finalize'.

On the right side, there is a 'USEFUL LINKS' section with three links: 'Home', 'Order Pizza', and 'Process Order', each accompanied by a small icon.

2) Click on finalize Button to submit your order. Necessary validation has been performed using PHP.

The screenshot shows the 'ORDER YOUR PIZZA' form with the following fields and options:

- Size of Pizza:** A dropdown menu with 'Small' as the selected value.
- Kind of Pizza:** A button menu with three options: 'Pepperoni', 'Vegetarian', and 'Combo'.
- Extra Cheese:** A checkbox labeled 'Yes' which is now checked.
- Quantity:** A text input field containing the number '2'.
- Cost of selected Pizza:** A label positioned above two buttons: 'Calculate' and 'Finalize'.

On the right side, there is a 'USEFUL LINKS' section with three links: 'Home', 'Order Pizza', and 'Process Order', each accompanied by a small icon.

3) Now user will be redirected to checkout.php.
